PROJECTS [\(See portfolio site\)](#)

Netflixier (HTML/CSS): *A site for discussing, discovering, and reviewing popular shows/movies.*
Created wireframes of site's key pages in Figma and detailed designs using HTML/CSS.

TAG-Maker (Java): *Construct text-based adventure games with branching choices*

- Parses and interprets text files, organizing the contents into a navigable tree
- Allows user to traverse the resulting structure using keyboard commands

Personal Portfolio (HTML/CSS, Bootstrap): *A personal showcase for coding and design work*

Created minimalist, functional single-page site using HTML/CSS/Bootstrap for hosting portfolio of design and development work.

EXPERIENCE

"Odd Jobs" Graphic Designer (*Volunteer / Freelance Work*): 2014 - 2017

- Created branding, fliers, uniform designs, etc. for schools, organizations, and individuals
- Extrapolated style guidelines utilizing client's desired identity and/or existing branding
- Clearly communicated design choices and recommendations in easily understood terms
