[jimmyhchu@gmail.com](mailto:jimmyhchu@gmail.com)

## EDUCATION

---

**University of California, Santa Cruz** - B.S. Technology & Information Management

Expected Graduation: December 2018

## SKILLS

---

Programming: Java, C, HTML, CSS, familiarity with JavaScript

Design: Illustrator and Photoshop. Familiarity with InDesign, Balsamiq, and Flash

Other: Fluent in Mandarin Chinese

## PROJECTS [\(See portfolio site\)](#)

---

**TAG-Maker:** *Construct text-based adventure games with branching choices*

- Parses and interprets text files, converting them into Java objects
- Allows user to traverse the resulting tree structure with keyboard commands

**Housemate:** *A web application used for finding rental partners based on price range*

- Allows users to list themselves in the database or perform a search
- Matches users by their selected price range

**Personal Portfolio:** *A site built to showcase programming and design work*

- Contains github links, design write-ups, and more
- Simple, efficient design

## COURSEWORK

---

Data Structures & Algorithms

Systems Analysis & Design

Econometrics (Surveys, interpreting data, case studies)

Database Management
